

SENSORISED

Glove (9 DOF)

Technical Data Sheet

Model	Sensorised Glove (9 DOF)
Degrees of Freedom	9 DOF
Sensor Technology	Stretchable strain sensing
Sampling Rate	40 Hz for each channel
Wireless connectivity	Bluetooth
Calibration Time	≈10 seconds
Desktop Application	Hand model visualization Raw signal data acquisition and logging
Applications	Robotic teleoperation, dexterous manipulation, physical AI data collection, XR/VR, Research
